

# Anchor Systems

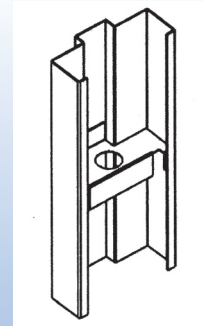

Stainless Doors, Inc. offers the architectural building industry many options for mounting our stainless steel frames and borrowed lites in wall and partitions. We understand the construction challenges and offer uniquely designed anchoring systems so as not to affect the inherent beauty of the frames and borrowed lites. Our capabilities allow us to provide these systems for virtually all shapes, sizes, finishes, and hardware combinations to meet our customers' requirements and functional criteria. Whether standard or custom anchoring systems, our products are manufactured to demanding industry standards while intrinsically creating *"The Stainless Advantage."*
